Fruit and seed spotter

Conkers, acorns, keys, berries and cones of twelve common trees. Tick each one you find.

☐ **Horse chestnut**

A conker in a thick spiny husk

☐ **English oak**

Acorns on long stalks, often in pairs

☐ **Sycamore**

Paired keys, wings set in a V

☐ **Common ash**

Bunches of biscuit brown keys, held all winter

☐ **Common beech**

Triangular nuts, two to a prickly husk

☐ **Sweet chestnut**

Dense ball of fine spines, usually three nuts

☐ **Hazel**

Nuts in a leafy husk their own length

☐ **Hawthorn**

Red haws, one pip in each

☐ **Rowan**

Flat heads of scarlet berries from August

☐ **Alder**

Small woody cones, on the tree year round

☐ **Field maple**

Paired keys with wings set in a line

☐ **Scots pine**

Slim greyish brown cones, two ages at once
