# Leaf spotter

Twelve common British trees by their leaves. Tick each one you find.

☐ **English oak**

Rounded lobes, ear-like flaps, a very short stalk

☐ **Sycamore**

Five lobes, with coarse blunt teeth

☐ **Horse chestnut**

Five to seven leaflets, fanned like fingers

☐ **Common ash**

Nine to thirteen leaflets, the leaves in opposite pairs

☐ **Common beech**

Oval, wavy-edged, fringed with fine hairs

☐ **Silver birch**

Triangular, straight-sided, big and small teeth

☐ **Hazel**

Nearly round, soft and floppy, tip suddenly pointed

☐ **Hawthorn**

Small, cut at least halfway to the centre line

☐ **Rowan**

Feathered into 13 to 15 toothed leaflets

☐ **Holly**

Glossy and hard, spiny low down, smooth higher up

☐ **Common lime**

Heart-shaped and lopsided, buff tufts underneath

☐ **Field maple**

Small, five rounded lobes, few blunt teeth
